Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

1. Examiner notes that the following changes were discussed with Attorney Frank C. Nicholas on 12/9/2005.

Drawings

2. The drawings are objected to because:
 - a. Fig. 1, element 25, applicant discloses that element 25 produces the soft estimates are computed through and then transferred to element 16. Element 25 does not have an output. Examiner suggests applicant use the correct directional flow output arrow for element 25 for clarification purposes.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities:
 - a. Pg. 10, lines 1-4, examiner suggests applicant move equation number to the same line as the equations for clarification purposes.Appropriate correction is required.

Claim Objections

4. Claims 1-4, 21 are objected to because of the following informalities:
 - a. Claims 1, 3, 21 recite wherein "the first iteration generates a first set of soft estimates of bits" and "the second iteration is a function of a first set of soft symbol estimates". Examiner asserts that this is inconsistent. Examiner assumes that if the first iteration generates a first set of soft estimate of bits and the second iteration is a function of the first iteration, then the first iteration generates a first set of soft symbol estimates.Appropriate correction is required.

5. Claims 5-20, 23-30 are objected to because of the following informalities:
- a. Examiner suggests applicant describe all elements in all equations.

Appropriate correction is required.

Conclusion

6. This application is in condition for allowance except for the following formal matters:

- a. Drawings
- b. Specification
- c. Claim Objections

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
